Childhood First is a charity with a long and successful history of running therapeutic communities, which provide integrated programmes of care, education and treatment for traumatised children and young people. We are very successful with our work and help children achieve outcomes are substantially better than those achieved by the national cohort of looked after children.

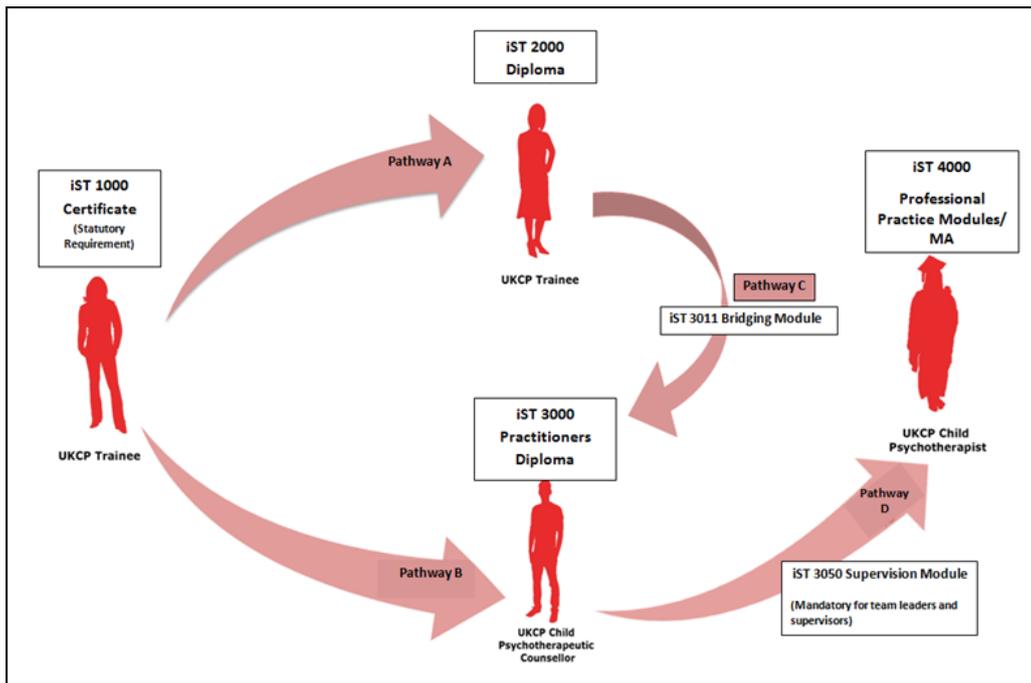

Earthsea House is a specialist residential children's home providing a programme of care, treatment and education for up to 6 children aged between 10 to 18 years.

We are committed to creating therapeutic environments where children and young people can have their care, emotional, educational and treatment needs met by experienced and informed therapeutic staff. Our work is grounded in psychodynamic principles and we believe that a child's difficulties are rooted predominantly in their past relationships, and that healing can happen through the building of new and safe relationships.

We therefore require staff to engage in the training and support provided in order to gain an understanding of these relationships, including those with their colleagues through the use of a staff dynamic group process.

Childhood First is a teaching-organisation and we work in partnership with our holding-company the Institute of Integrated Systemic Therapy, which develops and delivers many of the accredited courses we offer.

- After achieving the Practitioners Diploma, students can proceed to pathway D to partake in Professional practice modules/ gain an MA in IST4000;
- The Supervision module is mandatory for team leaders/ supervisors.

The purpose of Earthsea House is to provide an environment where the hurt and damage of a child's past can begin to be addressed. Staff will need to demonstrate a level of commitment openness and willingness to engage with the iST approach in order to facilitate the therapeutic needs of children in their care.

In return CF will provide a comprehensive package of training and support, including regular line management supervision overseen by a Child Psychotherapist, weekly reflective practice/dynamics groups which are facilitated by qualified Group analytic psychotherapists and regular theoretical seminars facilitated by psychotherapists.
